## CONTINUOUS RUNS

- 1 Insert terminal connectors into each terminal where two LED boards will be joined. Push boards together leaving no gap.  
**Note:** Ensure + and - terminals are aligned throughout the entire run.

## A1 Series | Surface CONNECTOR Dry Power Connector (A1-PC-2P-DRY)

### CONNECTORS

- 1 Insert power connector or continuous connector lead wires into LED board terminals. Insert the positive wire (red) into the terminal marked "+". Insert the neutral wire (black) into the terminal marked "-".  
**Note:** Ensure + and - terminals are aligned throughout the entire run.

- 2 Make connections between connectors by plugging the male and female disconnects together.

- 3 Position connectors as needed.
