ZUCO

Indirect Valance

(A1-ZUCO-IND)

Introducing the ZUCO Indirect Valance.

ZUCO Indirect Valance is a semi-direct, linear, wall-mount luminaire that refines perimeter lighting design with reverse asymmetric glare-free optics.

Single Light Source. Multi-Direction Illumination.

A single light source is reflected in two directions – 20% is reflected upwards, creating a cove effect, while 80% is reflected downwards for general lighting.

Ideal for Any Situation.

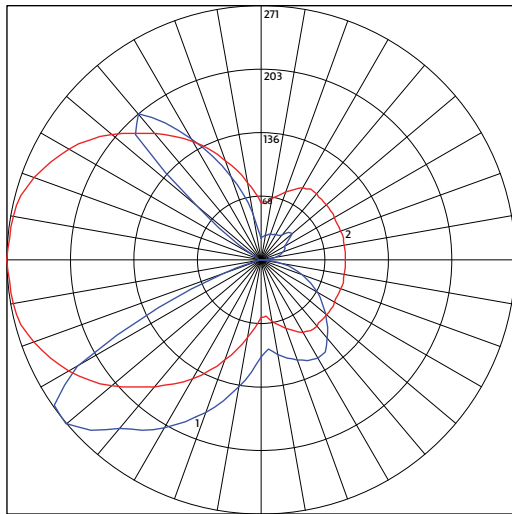

ZUCO Indirect Valance can be tailored to provide aesthetic accent lighting or total illumination of a space.

Endless Customization.

Built to the inch, along with factory-built illuminated corners, **ZUCO Indirect Valance** can be manufactured to your exact specifications.

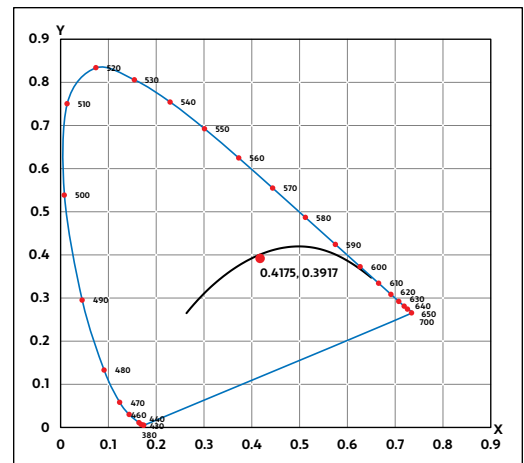

Performance

Polar Graph

Maximum Candela = 271, Located at Horizontal Angle = 180, Vertical Angle = 50
 #1 - Vertical Plane Through Horizontal Angles (180-0) (Through Max. Cd.)
 #2 - Horizontal Cone Through Vertical Angle (50) (Through Max. Cd.)
