# Designers Guide to Recessed Lighting Solutions **A2 Series**

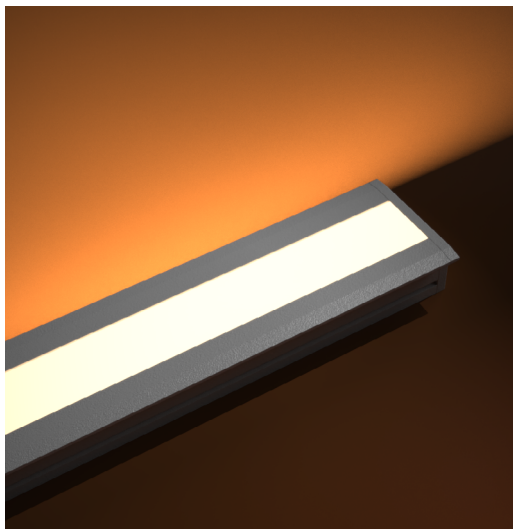

## ZELO

Discover our **LINE VOLTAGE**, all-in-one **recessed** solutions for **indirect lighting** without exposed lens for reduced glare. ZELO is available with pre-fabricated corners and up to **2160 delivered lumens** per foot. Driver on board allows for easy replaceability.

## ZUVU

ZUVU unlocks **LOW VOLTAGE**, **small profile flush** possibilities and can be manufactured to your exact specifications to deliver stunning lines of light up to **650 delivered lumens** ideal for mud-in applications.

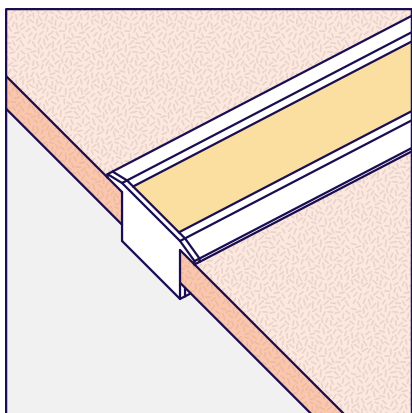

## ZOHE

If you are looking for **LOW VOLTAGE**, **small profile recessed** solutions, ZOHE is right for you with slim profile **flanged** linear system delivering up to up to **650 delivered lumens**.

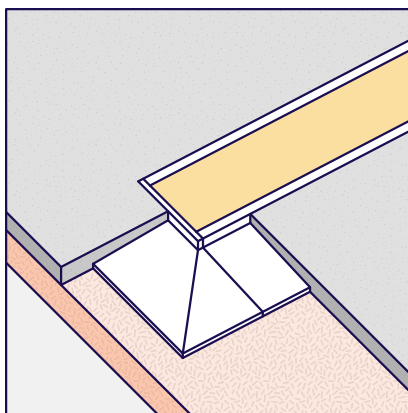

## MOUNTING STYLES

Mounting styles have been thoughtfully designed to overcome installation obstacles. Multiple design ideas can be achieved with these versatile solutions.

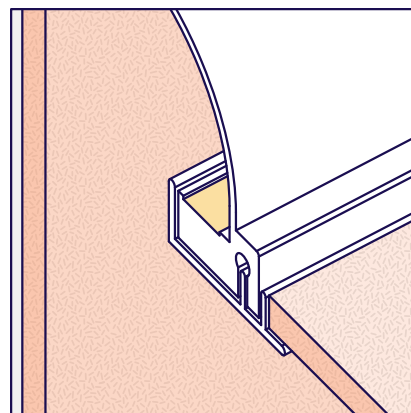

### Recessed Mounting

The fixture is set inside the mounting surface, leaving only the lens and flange exposed.

### Mud-In / Flush Mounting

The fixture is set inside the mounting surface and flanges covered with plaster, leaving only the lens exposed for a seamless, flush appearance.

### All-in-one Mounting

Choose from various trim styles designed to integrate flawlessly with ceiling systems such as t-bar grids and dropped ceilings.

The background is a solid dark brown color. A bright, glowing orange light beam enters from the right side and extends diagonally towards the bottom left. At the bottom of the image, there are several parallel, dark, metallic-looking strips that appear to be part of a staircase or a modern architectural structure, illuminated from below.
