ZUFI

When **LOW VOLTAGE** or **LINE VOLTAGE flexible strips** are what you're looking for, the ZUFI family is the perfect place to start.

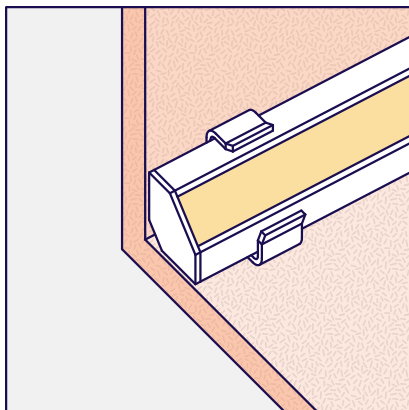

MOUNTING STYLES

Mounting accessories have been thoughtfully designed to overcome installation obstacles. Multiple design ideas can be achieved with these versatile solutions.

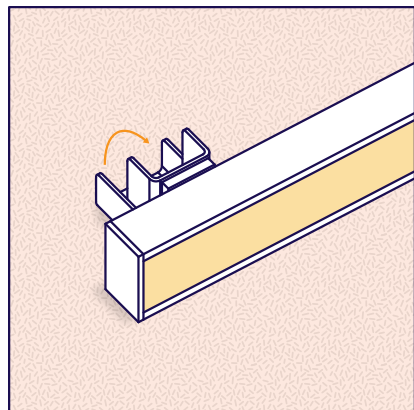

Standard Mounting

For surface installations, this option will mount the fixture to illuminate a variety of spaces.

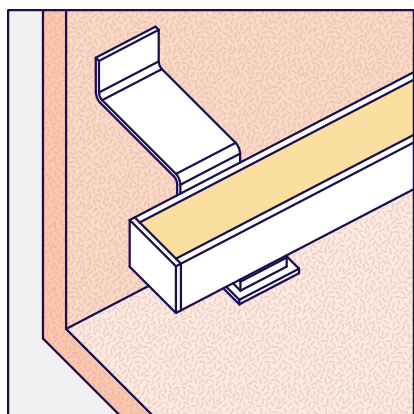

Corner Mounting

The fixture is optimized for corner applications with a natural 45° angle.

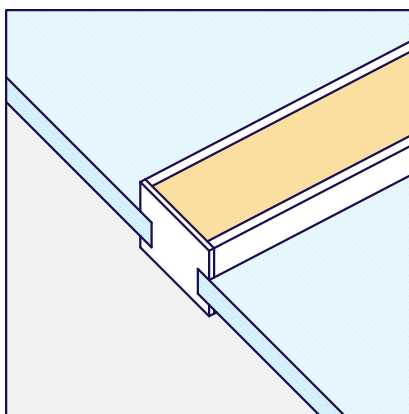

Adjustable Angle Mounting

For surface installations that require on-site flexibility to aim the beam direction.

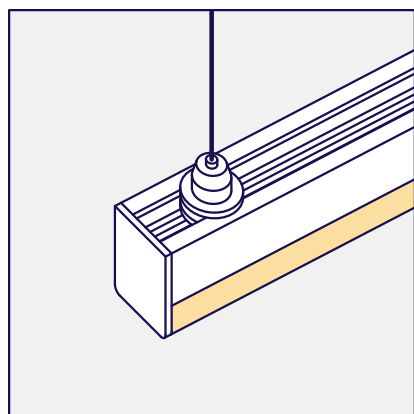

Extended Mounting

For wide cove spaces this option will mount the fixture to illuminate spaces that are hard to reach.

Glass Mounting

The fixture is secured directly to glass using adhesive.

Pendant Mounting

The fixture hangs from a surface using cables in standard or custom lengths.

The background image shows a modern restaurant interior. The ceiling is a complex, multi-level structure with a grid of recessed lighting. The walls are made of light-colored stone or concrete. The floor is dark wood. There are several square tables and chairs arranged in the room. The overall lighting is warm and ambient.
